PROFESSIONAL SUMMARY

Computer Science undergraduate skilled in JavaScript, React, and SQL with hands-on experience in web development using HTML, CSS, Node.js, and Express.js. Built interactive web applications and familiar with RESTful APIs and databases like MongoDB and MySQL. Seeking Software Development Engineer roles to apply technical and problem-solving skills.

EDUCATION

Bachelor of Technology in Computer Science & Engineering Nov 2023 – Expected May 2027
SRMCEM, Lucknow – Abdul Kalam Technical University (AKTU)
Relevant Coursework: Operating Systems, DBMS, Software engineering, Computer Network

TECHNICAL SKILLS

Programming Languages	JavaScript, Python, SQL
Web Technologies	Node.js, Express.js, RESTful APIs, HTML, CSS, Backend Development
Databases	MongoDB, MySQL
Developer Tools	Git/GitHub, VS Code, Linux/Windows

PROJECTS

Movie Recommendation System | *Streamlit, FastAPI, TF-IDF, TMDB API* | [Live Demo](#) | [GitHub](#) Jun 2026

- Built a hybrid recommender using TF-IDF vectorization and cosine similarity on movie metadata.
- Integrated TMDB API in a FastAPI backend for posters, ratings, and trending movie feeds.
- Created a Streamlit frontend with auto-complete search and genre-based recommendations.

Social Media App | *React.js, Vite, Bootstrap, Context API* | [Live Demo](#) | [GitHub](#) Mar 2026 – Apr 2026

- Developed a responsive social media app for creating, managing, and deleting posts in real time.
- Managed global state with Context API and useReducer for efficient post data handling.
- Added reactions, automatic hashtag formatting, and responsive UI components with Bootstrap.

ChurnSight | *React, Vite, FastAPI, Python, ML* | [Live Demo](#) | [GitHub](#) Jan 2026 – Mar 2026

- Built an ML churn dashboard with risk scoring, analytics, and interactive visualizations.
- Connected a FastAPI backend with a React frontend for real-time churn prediction.
- Improved model performance using feature engineering, threshold tuning, and ensembling.

Mood Swings | *HTML, CSS, JavaScript* | [Live Demo](#) | [GitHub](#) Dec 2025 – Mar 2026

- Developed a responsive music app with mood-based playlists and YouTube integration.
- Implemented mood selection, song search, and an interactive quiz using JavaScript.
- Designed custom themes and responsive layouts with HTML and CSS.

ACHIEVEMENTS & CERTIFICATIONS

- **Team Member, Smart India Hackathon (SIH) 2025:** Collaborated as part of a 6-member team, contributing to project development and coordination, and secured victory in the internal hackathon selection round.
- **AI/ML for Geodata Analysis – ISRO:** Completed a 7.5-hour online course conducted by Indian Institute of Remote Sensing (Department of Space, Government of India).

- **Achievements:** Won multiple technical events at college tech fests since first year.
- **Cybersecurity and Ethical Hacking Training:** Completed Cyber Security and Ethical Hacking training conducted by Sec Tech Creation (in collaboration with SRMCEM Lucknow). Learned shell scripting, important Linux commands, and basic cybersecurity terminologies.
